Re: Regulatory Notice 10-25 – Comments
Our Firm CRD Number 19981

Dear Ms. Asquith:

Pursuant to FINRA's request regarding the above, it appears the new regulation would require currently registered principals to take the S101 Continuing Education module. Since registered principals are already subject to taking the S201 Continuing Education module, it seems redundant to require those of us taking the S201 to also take the S101. Shouldn't the proposed regulation be worded to clarify this matter or is FINRA proposing that current principals will be required to take the S101 module?

Your review and consideration is appreciated.

Sincerely,

Byron Pat Treat
President/CEO
