

UDP/IP Addresses for OTC Equity Market Data Feeds

As a service to network providers, FINRA maintains a consolidated list of IP address and ports for its UDP/IP services in the production, weeknight test, and test (NTF) environments. Please note that FINRA reserves the right to modify IP address and port information as needed for network and operation reasons.

All technical questions regarding the feeds may be directed to [FINRA Product Management](#) or call (866) 899-2107.
